**MEDICATION:** Vinorelbine (Navelbine®)

**USES:** To treat many forms of cancer and maybe used with other chemotherapy agents

**ADMINISTRATION:** Intravenous

---

**Potential Side Effects:**
- Redness, pain, or swelling where the IV is given (see additional instructions)
- Nausea, vomiting, diarrhea
- Fatigue
- Hair loss is temporary and will grow back
- Drop in blood cell counts within 7-14 days after treatment
- Mild constipation with abdominal discomfort or pain
- Numbness or tingling in hands or feet

(The side effects listed above are those that occur most frequently. Other side effects may occur; please contact your doctor to report any new medical problems!)

**Warnings:**
- Inform your doctor if you are:
  1. allergic to any food or medicine,
  2. taking any non-cancer related prescriptions or over the counter drugs
- Ask your doctor or pharmacist before using any new medications including: prescriptions, over-the-counter drugs, vitamins or herbal supplements.

**Additional Instructions:**
- Leakage outside the vein during infusion of the drug may cause pain and skin damage. Contact your doctor if there is pain, burning, swelling, redness or tenderness in the area.
