

CEDARS-SINAI MEDICAL CENTER®

ISDR Clinical Image and Clinical Information Submission Protocol

Prior to submitting any materials for research, including X-rays, please contact Arleen Hernandez at (310) 423-9915 to ensure that appropriate documentation is obtained. For all cases, please submit a completed, detailed clinical summary.

If the patient is deceased, please include the date of death and the date specimens were obtained. We would also like to obtain the autopsy report when it becomes available. Patient photographs and other relevant material should also be forwarded. Original radiographs and photographic material will be copied and returned for your files. CT and MRI images/records should also be forwarded if available.

Good quality **X-rays** detailing the following are requested:

Skull (AP & lateral)

Spine: cervical (lateral), thoracic (AP and lateral) and lumbar (AP and lateral)

Pelvis and hips (AP)

Chest (AP rib technique)

Hands and wrists (AP)

Long bones (AP)

Knee (Lateral)

Feet and ankle (AP and lateral)

For a newborn or small baby, AP and lateral films of the whole body are usually sufficient if the above sites are adequately shown. If not, please take separate AP and lateral skull and AP of both hands.
