

Academic Neuro-Oncology Research Faculty Position

Cedars-Sinai Medical Center, one of the nation's premier healthcare institutions, is seeking a 4th Neuro-Oncologist with strong laboratory research experience to join the expansion of the Neuro-Oncology Program at the Johnnie L. Cochran, Jr. Brain Tumor Center and Maxine Dunitz Neurosurgical Institute in the Department of Neurosurgery. The Neuro-Oncologist will have an exciting opportunity to set up an independent brain tumor research laboratory and to participate in a well-established nationally recognized interdisciplinary center and Brain Tumor Center of Excellence with a Faculty appointment in the Department of Neurosurgery and Neurology.

Candidates must be board certified in either Neurology or Internal Medicine or Medical-Oncology and have completed a fellowship in Neuro-Oncology with strong laboratory research background. The successful candidate will be responsible for setting up laboratory research and providing care in an interdisciplinary environment with Neurosurgeons, Neuro-Radiologists, Neuro-Pathologists and other members of the medical team. They will engage in implementing the strategic vision of the department by enhancing comprehensive leadership in research and education; will provide access to cutting edge treatment modalities of translational clinical research with focus on Vaccine/Immunotherapy, Targeted therapy, Gene therapy, Stem cell and Drug Delivery by breaking down Blood Brain Barrier (BBB) including convenient and accessible services; and psychosocial and educational support to patients and families. An option of starting up a laboratory research fund is also available.

Cedars-Sinai, a tertiary acute care academic medical center affiliated with the David Geffen School of Medicine at the University of California Los Angeles, is committed to excellence in compassionate patient care, research, and community programs to improve the lives of our patients.

If you are interested in this opportunity to join a flourishing clinical and academic environment, please send your curriculum vitae, at least 3 letters of reference and a statement of strategic vision to:

Surasak Phuphanich, MD, FAAN, Director, Neuro-Oncology Program, Department of Neurosurgery and Neurology
