

CEDARS-SINAI MEDICAL CENTER.

**Cedars-Sinai Medical Center  
Chair, Department of Medicine**

Cedars-Sinai Medical Center, one of the nation's premier healthcare institutions, has an exceptional opportunity for an academic leader to Chair our Department of Medicine and join an outstanding faculty leadership team. The Chair will be a member of the executive management group and provide system-wide leadership.

We are proud that Cedars-Sinai was recognized in twelve specialty categories in the 2011 US News & World Report rankings. Within Medicine, rankings include Cancer, Cardiology, Diabetes and Endocrinology, Gastroenterology, Geriatrics, Nephrology and Pulmonary. We have recently established new translational programs in regenerative medicine, experimental imaging, biorepository and personalized medicine, molecular oncology, bioinformatics, nanomedicine and medical physics. We will continue with important advances in the Department of Medicine with the appointment of a new Department Chair.

The successful individual must have an accomplished academic career in Internal Medicine, leadership experience in a busy academic medical center and exceptional clinical and research achievement with a strong track record of publication and competitive extramural funding. Experience with managing growth, health outcomes initiatives and innovative enhancement of residency training programs will be highly desirable. Demonstrated experience as a collaborative academic leader able to work well with internal and external colleagues is vital.

An MD or MD/PhD is required. Candidates must have or be eligible for California State medical licensure. The Chair is expected to qualify for a senior academic appointment in the Cedars-Sinai professorial series, and at the David Geffen School of Medicine at the University of California, Los Angeles.

Cedars-Sinai is a growing academic enterprise with over \$100 million in extramural research grant funding, a recently established graduate program awarding PhD degrees in biomedical sciences, a robust ongoing construction program of an Advance Health Sciences Pavilion adding over 500,000 square feet of wet and dry laboratories, outpatient and procedure areas. Cedars-Sinai has focused on institution-wide growth of the academic enterprise with new Heart, Cancer and Regenerative Medicine Institutes to enhance ongoing departmental growth. Areas of research strength at Cedars-Sinai include cardiology, gastroenterology, genetics, cancer, imaging, neurosciences, endocrine-metabolic disease, immunobiology, stem cell science and innovative surgical technologies.

Cedars-Sinai Medical Center, a state-of-the-art, 958 bed, tertiary acute care academic medical center is committed to excellence in compassionate patient care, research, education and community programs to improve the lives of our patients. We are located in a highly desirable location in the City of Los Angeles. Competitive salary, benefits and relocation support will be provided.

*Qualified applicants should send a cover letter and CV to Medicine Search Committee Chair,
