Cedars-Sinai Medical Center has an outstanding opportunity in Genomic Medicine for an academic leader in our Medical Genetics Research Institute (MGRI). We are looking for a visionary leader who will build and lead an innovative research program that integrates a translational program. The Director will play an important role in determining Cedars-Sinai’s future directions in precision medical patient care, including clinical and translational research.

The MGRI Director will have the opportunity to lead development of the necessary disciplines, including Genome Informatics and Computational Biology, which will take advantage of the significant clinical material and data available at Cedars-Sinai and translate those activities into discovery and delivery of the next generation of data-driven medical care. We are particularly interested in candidates who use novel genomics approaches to address fundamental questions in human biology including human genetics, cancer biology or systems biology and computational biology. Faculty members of the Institute are instrumental in directing strong clinical Medical Genetics (GME) and NIH-funded (T32) programs at Cedars and the Director will provide oversight for these programs.

The Director will have appointments in the Department of Medicine and the Department of Biomedical Sciences and will undertake a research program related to any of a number of genomics areas but will be expected to have a focus relevant to human health.

This position is aimed at senior investigators with an M.D. or Ph.D. and a track record of excellence in research and also of visionary leadership. Cedars-Sinai is home to a number of excellent core research facilities, including biobanking, next-generation sequencing, microscopy, biostatistics, advanced imaging, and stem cell generation.

Cedars-Sinai Medical Center, a state-of-the-art, 958 bed, tertiary acute care academic medical center is committed to excellence in compassionate patient care, research, education and community programs to improve the lives of our patients. We are located in a highly desirable location in the City of Los Angeles. Competitive salary, benefits and relocation support will be provided.

Interested candidates should submit their CV, cover letter, and references to: MGRI Search Committee, c/o Academic.Recruiting@csrh.org
