OUTSTANDING OPPORTUNITY IN HEMATOLOGY ONCOLOGY
EXPERIMENTAL THERAPEUTICS
CEDARS-SINAI MEDICAL CENTER
SAMUEL OSCHIN COMPREHENSIVE CANCER INSTITUTE (SOCCI)
TOWER HEMATOLOGY ONCOLOGY (THO)

Cedars-Sinai Medical Center and Tower Hematology Oncology (part of the Cedars Sinai Medical Foundation) are conducting a national search for a medical oncologist specializing in experimental therapeutics. This role encompasses clinical care, research and teaching across a large health system overseeing translational and early development studies in cancer care.

PRIMARY RESPONSIBILITIES:
The successful candidate will develop an Oncology practice with a specialty focus in area(s) of interest and will lead and participate in a high volume clinical practice. Functions independently as a Clinical Investigator and PI or Co-I for clinical studies. Recruits patients eligible for clinical studies at THO and communicates effectively with research nurses, CRA's, and the SOCCI CRO. Participates in the SOCCI Experimental Therapeutics (ET) meetings weekly as well as working group meetings in ET, and other disease research groups. Will have defined time weekly with clinical activity at Cedars-Sinai in area of interest and will function as liaison for clinical trials integrating SOCCI and THO clinical trial efforts.

Oversees the medical administration aspects of the inpatient, outpatient, and ancillary services associated with Experimental Therapeutics at THO. Works closely with Nursing Leadership to assure the highest level of physician/nurse collaboration.

Focuses on development of Experimental Therapeutics at Tower Hematology Oncology to provide a translational science environment with a focus on early stage therapeutic agents. Key goals will be to increase the number of early development clinical trials available for SOCCI and Tower Hematology Oncology and increase enrollment of patients on early development clinical trials. Works to increase representation of minority populations on clinical trials. Assures patients are informed about clinical trials and their ability to participate.

MINIMUM JOB REQUIREMENTS:
1. Medical Degree from an accredited medical school
2. Board Certification in Medical Oncology
3. CSMC Medical Staff Membership
4. Unrestricted California Medical License
5. 2-5 years’ experience in early drug development, translational research, and collaborative clinical trial design and conduct.
6. Successful record of publication in peer reviewed journals; the ability to serve as principal or co-investigator on research projects.
7. A track record of clinical trial research and patient enrollment.
8. Demonstrated leadership in improving patient outcomes.
9. A track record of excellence in teaching, patient care, and administration.
10. Advanced degree in Clinical Investigation or similar is preferred but not required.

Cedars-Sinai Medical Center, a state-of-the-art, 958 bed, tertiary acute care academic medical center is committed to excellence in compassionate patient care, research, education and community programs to improve the lives of our patients.
