

## HEMATOLOGY/ONCOLOGY

Cedars-Sinai Medical Group provides a full range of hematology/oncology services and is dedicated to:

- Pursuing a thorough understanding of the patient's illness and seeking the optimal medical therapy and outcome
- The highest level of expertise in the development, implementation and management of customized treatment strategies for individuals with cancer and blood disorders
- Participating in experimental therapies through active clinical trials for a wide variety of malignancies
- The comprehensive coordination of all medical therapy appropriate for the patient's condition, whether it is delivered through our clinic or through other healthcare providers
- Encouraging cooperation among patients, family, friends, our medical staff and other medical professionals, including the primary care physician
- Offering ongoing support and guidance to help patients and their families work through their medical challenges

Our doctors, nurses and staff focus on providing comprehensive, compassionate care, including:

- Helping patients understand their diagnosis
- Developing customized treatment strategies that are appropriate for each patient's individual health and lifestyle

- Coordinating all aspects of treatment, both in our facility and with other specialists
- Providing experienced administrative support to manage insurance and other paperwork details

Our extensive involvement in clinical trials keeps us abreast of the latest treatment developments, which we then offer to our patients.

### Payment

Cedars-Sinai Medical Group accepts self-pay, most forms of insurance and Medicare.

## **Expert Physicians**

Marina Vaysburd, MD specializes in the field of clinical oncology and cancer investigation. Dr. Vaysburd is also an attending physician at Cedars-Sinai Medical Center's Samuel Oschin Comprehensive Cancer Institute, and she is a clinical instructor at the David Geffen School of Medicine of the University of California, Los Angeles (UCLA). She is a diplomate of the American Board of Internal Medicine and Medical Oncology.

Dr. Vaysburd is dedicated to treating a wide range of cancers, including lung, head and neck, gastrointestinal, urologic and blood malignancies. She has a special interest in the field of breast cancer and genetic screening for hereditary breast and ovarian syndrome, and she has specialized training in hematology.

Dr. Vaysburd received her bachelor's and medical degrees from Stanford University. She completed her residency in internal medicine at UCLA Medical Center and Methodist Hospital in Memphis and her hematology/oncology fellowship at the University of Southern California (USC)/Norris Cancer Hospital. Dr. Vaysburd is fluent in Russian.

Noam Drazin, MD specializes in clinical hematology/oncology. He is an attending physician at Cedars-Sinai Outpatient Cancer Center at the Samuel Oschin Comprehensive Cancer Institute at Cedars-Sinai Medical Center.

Dr. Drazin is also a clinical instructor at the David Geffen School of Medicine at UCLA. He is a diplomate of the American Board of Medical Oncology.

With a special interest in benign hematology and hematologic malignancy (such as leukemia, lymphoma and bone marrow transplantation), Dr. Drazin is committed to treating a wide range of cancers, including breast, gastrointestinal, lung and urologic malignancies. Dr. Drazin has completed intensive training in effective communication with cancer patients and their families.

Dr. Drazin earned his bachelor's degree from Boston University, College of Liberal Arts and his medical degree from Albert Einstein College of Medicine in New York City. He completed an internship and a residency in internal medicine at Cedars-Sinai Medical Center, serving as Chief Resident, and hematology/oncology training at Cedars-Sinai and Olive View/UCLA Medical Center combined program.
