

Table 1. Summary of resident's research, 1991-2007

Research areas	No	Examples
Obstetrics	47	<p>The risk of cytogenetic abnormalities in the late first trimester in multiple gestation pregnancies</p> <p>Hereditary thrombophilia in women with recurrent pregnancy loss</p> <p>Obstetric and neonatal outcome in gestational diabetes: effect of maternal body mass index</p> <p>Advanced abdominal pregnancy: The Cedars-Sinai experience 1983-1993</p> <p>CVS complications: assisted vs. spontaneous conceptions</p> <p>Prostaglandins and catecholamines in postdates pregnancy</p> <p>Uterine & umbilical artery Doppler assessment in hypertensive d. in pregnancy</p> <p>Prophylactic vs. therapeutic amnioinfusion in patients with premature rupture of membranes : a prospective study</p> <p>Impact of universal screening on GBS disease: a factor assessment at cedars 1997-2004</p> <p>Abnormalities in Angiogenic Peptides at 3 Time Points in Diabetic Pregnancies</p> <p>Chronic Villus Sampling & Risk of HTN Disorders of Pregnancy</p>
Gynecology Oncology	19	<p>CAG polymorphisms in androgen signaling genes predict aggressive epithelial ovarian cancer biology</p> <p>BRCA-associated fallopian tube cancer: a distinct clinical phenotype</p> <p>Morbidity and outcomes in patients with early stage cervical cancer treated with chemoradiation versus radiation alone after radical hysterectomy</p> <p>Adnexal involvement in endometrial cancer</p> <p>The effect of obesity on survival in epithelial ovarian cancer</p> <p>Her-2/neu oncogene lines in HEC-1A, RL-95, KLE & ANC3CA endometrial cancer lines</p> <p>Adenoma-in-situ of the cervix: are there prognostic indicators of residual disease?</p> <p>The use of FDG-PET scans for preoperative evaluation of disease distribution in ovarian cancer</p> <p>Distinguishing Primary Mucinous Ovarian Carcinomas From Primary Gastrointestinal Carcinomas</p>
Gynecology	15	<p>A comparison of laparoscopy and pelviscopy over time in the treatment of ectopic pregnancy</p> <p>Hysteroscopy and uterine bleeding</p> <p>Myomectomies: long term follow-up at Cedars</p> <p>Direct effect of leptin on human steroidogenesis</p> <p>Hysterectomy and medicine in a decade of change: more than a weighty matter</p> <p>Trends in the Utilization of Reproductive Surgery</p>
Primary Care	5	<p>Domestic violence: Clinical prevalence and patterns</p> <p>The use of complementary and alternative medicine: a postpartum survey</p> <p>Cholesterol screening in the family planning clinic</p> <p>Pyelonephritis: new treatment strategies</p> <p>Eating disorders: knowledge, attitude & self-efficacy among OBGYN residents</p>
