The Heart Institute at Cedars-Sinai Medical Center invites applications for a Research Scientist position to join the arrhythmia research group led by Dr. Sumeet Chugh.

Candidates should have previous experience in clinical trial design with a history of publishing/grant funding in the area of clinical trials. A degree of PhD or MD or equivalent is required. Rank of appointment will be based on skills and qualifications of the applicant.

Primary responsibilities of this position are to work with a multi-disciplinary group for the design, coordination, and conduct of clinical trials in cardiac arrest and cardiovascular disease at Cedars-Sinai Medical Center. Responsibilities will include supervision of graduate and post-doctoral research trainees.

A successful candidate will have: clear oral and written communication skills; experience designing and analyzing clinical trial data; and the ability to work with a multidisciplinary research team.

Potential candidates should submit their application, including a cover letter and CV to: Dr. Sumeet S. Chugh, The Heart Institute, Cedars-Sinai Medical Center, c/o Academic.Recruiting@cshs.org
