CEDARS-SINAI RHEUMATOLOGY GRAND ROUNDS SPEAKERS AND TOPICS
2008-16

2016

May 2016: Sindhu Johnson, MD, PhD, FRCPC, "Developing Classification Criteria in the Modern Era"
April 2016: Ann Rosenthal, MD, "Calcium Pyrophosphate Deposition Disease: An Update"
March 2016: Jeffrey Harris, MD, "The Many Faces of Immune-Mediated Inner Ear Disorders"
February 2016: Yvonne Lee, MD, "Pain: Inflammation's Ugly Step Sister"
January 2016: Daniel Clauw, MD, "Treating Chronic Pain Based on the Mechanism Rather than Disease"

2015

December 2015: Michael Weinblatt, MD, "Update in Rheumatoid Arthritis Therapeutics"
November 2015: Kristine Kuhn, MD, "Research Vignettes Exploring the Gut-Joint Axis in Arthritis"
October 2015: Abby Abelson, MD, "Osteoporosis Update"
September 2015: Lisa Sammaritano, MD, "Current Management of Pregnancy in Rheumatic Disease"
August 2015: Nancy Olsen, MD, "Is It Ever Lupus?"
July 2015: Eric Matteson, MD, MPH, "Going, Going ... but Not Gone: Extra-Articular Manifestations of Rheumatoid Arthritis"
June 2015: James Witter, MD, PhD, FACC, "PROMIS: Turning Theory into Reality"
May 2015: Judith Smith, MD, PhD, "Spondyloarthritis Pathogenesis: Adding More Pieces to the Puzzle"
April 2015: C. Kent Kwoh, MD, "Causes of Pain in Osteoarthritis: What Have We Learned From Imaging?"
March 2015: Edward Yelin, PhD, MCP, "Getting Beyond Description: Explaining the Causes of Disparities in SES in SLE"
January 2015: Daniel Kastner, MD, PhD, "Cutting Gordian Knots with the Shears of Genomics: Investigating the Molecular Basis of Autoinflammatory Disease"

2014

December 2014: Virginia Kraus, MD, "Osteoarthritis: A New Perspective on an Old Disease"

November 2014: Robert Spiera, MD, "Treatment Strategies in Systemic Sclerosis"

October 2014: Joanne Jordan, MD, "Osteoarthritis: How Close Are We to Real Disease Modification?"

September 2014: Richard Pope, MD, "Rheumatoid Arthritis: Is There a Toll?"

August 2014: Hal Scofield, MD, "The Sex Bias of Lupus and Sjogren's — An Effect of X Chromosome Number"

July 2014: Sherine Gabriel, MD, "Insights from Studies of Heart Disease in Rheumatoid Arthritis"

June 2014: Ellen Gravallese, MD, "Bone Remodeling in Rheumatic Disease: What Have We Learned That Might Affect Therapy?"

May 2014: Leonard Calabrese, DO, "Viral Infections as Etiology, Comorbidities and Complications of Rheumatic Disease"

April 2014: Steve Abramson, MD, "Potential Role of the Microbiome in Inflammatory Arthritis"

March 2014: Matthew Liang, MD, MPH, "SLE Clinical Trials are Dying; Faster, Cheaper, and Better Options"

February 2014: Jonathan Kay, MD, "Biosimilars in Rheumatology: 'O Brave New World"

January 2014: Michael Brenner, MD, "Role of Synovial Fibroblasts in Rheumatoid Arthritis"

2013

December 2013: Susan Manzi, MD, "Outcomes in SLE: Practical Approaches to Management"

November 2013: David Karp, MD, "Early Diagnosis of SLE: Using a Fuzzy Lens to See
October 2013: Philip Seo, MD, "Update on ANCA-Associated Vasculitis"

September 2013: Marcy Bolster, MD, "Controversies in Osteoporosis"

August 2013: Mary Nakamura, MD, "Osteoimmunology: A New Way to Look at Old Diseases in the Bone"

July 2013: Betty Diamond, MD, "Insights into Neuropsychiatric Lupus"

June 2013: Antoine Hage, MD, "Pulmonary Arterial Hypertension in Patients With Connective Tissue Disease"

May 2013: Chester Oddis, MD, "Update on Idiopathic Inflammatory Myopathy: Treatment, Autoantibodies and More"

April 2013: Christopher Ritchlin, MD, MPH, "Psoriatic Arthritis: A Disease in Full"

March 2013: Lorinda Chung, MD, "Novel Autoantibodies and Clinical Phenotypes in Adult Dermatomyositis"

February 2013: John Hanly, MD, "The Clinical Challenges of Nervous System Disease in SLE"

January 2013: Vivian Bykerk, MD, "Towards Optimizing Care in Early Rheumatoid Arthritis"

2012

December 2012: Lee Simon, MD, "Barriers for New Drug Development in RA: What Did We Learn from the Newly Approved Multikinase Inhibitor?"

November 2012: Kevin Winthrop, MD, MPH, "Do Biologic Drugs Cause Infections?"

October 2012: Robert Inman, MD, "Advances in Pathogenesis and Treatment of Spondyloarthritis"

August 2012: Daniel Clegg, MD, "Spondyloarthritis: Recent Developments"
July 2012: Jeffrey Curtis, MD, MS, MPH, "Comparative Effectiveness in the Management of RA in 2012"

June 2012: Bruce Richardson, MD, PhD, "Genetic, Epigenetic and Environmental Interactions in Lupus"

May 2012: Judith James, MD, PhD, "Early Events in Lupus Autoimmunity"

April 2012: Peter Lipsky, MD, "B Cells as Targets in Autoimmune Diseases"

March 2012: William Robinson, MD, "Targeting Inflammation in Osteoarthritis"

February 2012: Elizabeth Karlson, MD, "Genetic and Environmental Epidemiology of RA"

January 2012: Antony Rosen, MD, "Human Autoimmune Rheumatic Diseases: Are Humans the Model?"

2011

December 2011: Jack Cush, MD, "Safety Concerns with Biologic Agents"

November 2011: Andreas Reiff, MD, "Autoinflammatory Syndromes"

October 2011: Joel Block, MD, "Osteoarthritis: Can We Modify the Disease Course?"

September 2011: Claire Bombardier, MD, FRCPC, "Making Sense of Clinical Trials, Meta-Analysis and Guidelines for RA Treatment"

August 2011: Cornelia Weyand, MD, PhD, "Telomeres in Rheumatoid Arthritis"

July 2011: Sterling West, MD, "Neuromyelitis Optica Spectrum Disorder in the Rheumatic Diseases"

June 2011: Maureen Mayes, MD, MPH, "SSC Treatment in 2011"

May 2011: Peter Merkel, MD, "ANCA — Associated Vasculitis"

April 2011: Lisa Christopher-Stine, MD, MPH, "Anti-HMGCoA Reductase-Associated Necrotizing Myopathy: From Bedside to Bench and Back"

February 2011: Larry Moreland, MD, "Rheumatoid Arthritis: An Update on Biological Therapy"

January 2011: Kenneth Saag, MD, MSc, "Opportunities and Challenges in Osteoporosis: 2011"

2010

November 2010: Richard Brasington, MD, "Interstitial Lung Disease: Ruminations of a Rheumatologist"

September 2010: Leslie Crofford, MD, "Evidence-Based Understanding of Fibromyalgia and Its Treatment"

August 2010: Elaine Husni, MD, "Psoriatic Arthritis 2010"

July 2010: Sam Lim, MD, "The Epidemiology of Lupus"

May 2010: Robert Plenge, MD, PhD, "Genetics of Rheumatoid Arthritis: From Genotype to Patient Care"

April 2010: John Imboden, MD, "Clinical and Translational Studies of Rheumatoid Arthritis"

March 2010: William Stohl, MD, "BAFF, IFN, TNF, SLE, and RA: Acronyms, Abbreviations, and Many Remaining Questions"

January 2010: Sherine Gabriel, MD, MSc, "Heart Disease in Rheumatoid Arthritis: New Insights"

2009

December 2009: W. Joseph McCune, MD, "Long Term Preservation of Renal and Cardiovascular Function in Patients with Lupus Nephritis"

November 2009: Vivian Bykerk, MD, FRCPC, "Learnings from a Multicentre Early Arthritis Cohort"
September 2009: Carol Langford, MD, MHS, FACP, "Update on Wegener's Granulomatosis"

June 2009: S. Louis Bridges, MD, "Genetic Influences on Rheumatoid Arthritis: Susceptibility, Severity, and Response to Treatment"

May 2009: Jorge Sanchez-Guerrero, MD, "Neuropsychiatric Manifestations in Systemic Lupus Erythematosus — Are We Driving the Wrong Way?"

April 2009: David Lee, MD, PhD, "The Synovium and Its Participation in Synovitis"
Cedars-Sinai Rheumatology

March 2009: Michael Ward, MD, "Disease Modification in Ankylosing Spondylitis"

February 2009: Kevin Winthrop, MD, "Infectious Complications of Biologic Therapies — Preventive and Therapeutic Strategies"

January 2009: Gary S. Gilkeson, MD, "Lessons Learned about Lupus from the South Carolina Sea Island Gullah Population"

2008

December 2008: Nora G. Singer, MD, "Wanted and Unwanted Effects of Immunosuppressive Drug Treatment in Rheumatic Disease Patients"

November 2008: David Daikh, MD, PhD, "New Treatments for Systemic Lupus Erythematosus"

September 2008: Mark C. Genovese, MD, "Novel Approaches to Rheumatoid Arthritis"

August 2008: Jeffrey Siegel, MD, "Clinical Development of New Drugs for Rheumatoid Arthritis"

June 2008: David S. Pisetsky, MD, PhD, "The Role of Alarmins in Inflammation. The Danger from Within"
May 2008: Graciela Alarcon, MD, MPH, "Antimalarials: The Real Advance in Lupus. Data from LUMINA, a Multiethnic Cohort"

April 2008: Ted Mikuls, MD, MSPH, "RA Epidemiology: Nature vs. Nurture in Understudied Populations"

March 2008: Robert Wortmann, MD, "Update in Idiopathic Inflammatory Myopathies (IIM)"

February 2008: Stanley Naides, MD, "Viral Modification of Cellular DNA: Parvovirus B19 Infection and the Origin of SLE"

January 2008: Richard Silver, MD, "Scleroderma-Associated Pulmonary Arterial Hypertension"
