Occupational Therapy Residency Program in Physical Rehabilitation - Acute Care

- Current staff members who wish to pursue a specialty in physical rehabilitation are eligible
- Start date – Dec. 2017 (will be determined at interview)
- Decision Date: Nov. 2017
- Expectation – one year in the residency program itself; option to hire as regular staff member if position is available
- Number of participants in the program: 1

The program includes:
- At least 8 hours of mentored time scheduled weekly with staff senior clinician
  - coursework in relevant evidence, diagnostic considerations, and regulations that inform and guide best practice in the practice of occupational therapy in an acute care setting
  - implementation and reinforcement of the process of therapeutic intervention to facilitate occupational performance and participation based on available evidence and theoretical perspectives, models of practice, and frames of reference
  - participation in scholarly activities that evaluate clinical practice, service delivery, and/or professional issues
  - components necessary to complete requirements to achieve Board Certification in Physical Rehabilitation

The desired candidate will have:
- Current and valid OT license
- Minimum of one year experience in acute care hospital setting preferred, exceptional candidates with less than one year of experience may be considered
- Candidates who have completed a FW II rotation in an acute care setting may submit their resumes

The residents’ commitments include:
  a. Satisfactory completion of all written exams and requirements included in the didactic coursework.
  b. Perform at a satisfactory level during assessment of the resident’s performance during established assessment periods (e.g. at 90 days, midterm and year end review - to be completed by residency mentors).
  c. Participate in the preparation and submission of a case report to a peer-reviewed journal – or in the design, literature review, proposal submission, data collection, data analysis, or publication of a controlled, clinical trial in an area of occupational therapy, as reviewed by CSMC.
  d. Demonstration of a positive involvement in work that addresses a need in the community.
  e. Meet or exceed all job skills as noted in their CSMC job description.

Applications
1. Application Form with an essay
2. Current resume/CV

Interview Qualified applicants will be scheduled for an interview. The interview will consist of a discussion of your goals and plan and a case study discussion. You will be given a patient case to read immediately prior to your interview appointment and then be asked questions regarding the case.
