

CEDARS-SINAI®

Outstanding Faculty Opportunity Cancer Biology Scientist

The Department of Radiation Oncology at Cedars-Sinai Medical Center seeks candidates for a faculty position at the assistant/associate/full-professor-level with an emphasis in cancer biology. The successful candidate will develop an innovative research program that complements Cedar-Sinai's multi-disciplinary research strengths in immunology, tumor microenvironment, genomics and bioinformatics. The Department seeks to supplement its existing programs in radiation oncology with a particular emphasis on translational research. The faculty recruit will enjoy superb resources including state-of-the-art laboratory space, core facilities and a strong collaborative research environment.

Applicants must have a Ph.D. and/or M.D. degree and significant postdoctoral research experience. High-impact publications in peer-reviewed scientific journals and a strong interest in tumor immunology, radiobiology or cancer genomics is preferred. Additionally, preference will be given to candidates with a record of peer-reviewed funding and research faculty will be expected to develop a internationally recognized, extramurally funded research program.

If you are interested in this opportunity to join in an expanding and innovative Radiation Oncology team in a clinical and research environment, please send your CV, including names of 3 references, and statement of strategic vision to: Dr. Stephen Shiao, Director of Basic Science Research, Department of Radiation Oncology, Cedars-Sinai Medical Center c/o Academic.Recruiting@cshs.org
