

CEDARS-SINAI®

Outstanding Medical Genetics Faculty Opportunity Department of Pediatrics

Cedars-Sinai Medical Center, one of the nation's premier healthcare institutions, is recruiting an academic Board Certified/Eligible Medical Geneticist with excellent clinical and teaching skills and a strong interest in research. Academic career development will be expected and supported. The successful candidate will work closely with the pediatric department clinical leadership, genetic counselors, and allied health professionals. Expertise desired in the evaluation, diagnosis, and ongoing care of patients with a variety of genetic disorders, including congenital anomalies, chromosomal disorders, biochemical genetics, mitochondrial disease, prenatal diagnosis, and cancer genetics, as well as the newly formed Undiagnosed Disease Program (UDP). The UDP provides expertise and access to specialty services for patients (pediatric and adult) who have not been able to obtain a diagnosis for their medical condition. There are opportunities in multidisciplinary and outreach clinics, training program education, and funded research. Salary will be commensurate with training and experience. Our faculty participates in the career development of medical students, pediatric residents, fellows, and junior faculty. The selected candidate will be eligible for faculty appointment at the appropriate level in the Cedars-Sinai Professorial Series and at the David Geffen School of Medicine at UCLA. The ideal candidate will demonstrate the following qualifications:

- MD Degree and eligible for California Medical License
- Board Certification in Pediatrics preferred
- Board Certification in Medical Genetics (or within three years of Fellowship and board eligible)
- Aptitude and accomplishment in clinical program development, Resident/Fellowship education, healthcare outcomes research, or research into mechanisms of human disease or translational investigation
- Evidence of longer term scholarly intent

Competitive compensation and relocation assistance will be provided. If you are interested in this opportunity to join a flourishing clinical and research environment and meet the specified qualifications, please send your curriculum vitae to Charles F. Simmons, MD c/o Academic.Recruiting@cshs.org.
