E-MAIL: Calvin.Lee2@cshs.org

STUDENTS / PERIOD: max 2

DURATION: 3 weeks

Please contact the Student Program Coordinator for other arrangements

Please visit our [VSLO](#) catalog for dates and to submit your application.

Description

The medical students will function as interns. Each student will meet with Dr. Cho and/or associate hospitalist on the first day to determine how the rotation is to be structured with educational goals and objective. Rotations are based on the individual interests and needs of the student. Students will care for patients of all socioeconomic backgrounds and with a mix of pathology ranging from bread and butter problems to tertiary care inpatient pediatrics.

Course Objectives

1. Managing a mix of "bread and butter" inpatients and those requiring tertiary and quaternary care.
2. Knowledge of normal human growth and development from birth to 18 years.
3. Knowledge of the pathogenesis and natural history, the orderly investigation, differential diagnosis, and management of disease of infants, children, and adolescents, both inpatient and outpatient.
4. Improved case presentations and discussion on ward rounds and at teaching conferences.
5. Understanding doctor-patient relationships and the inter-relationships between physicians, nurses, social service workers, child-life specialists, and ancillary personnel to achieve the best in pediatric care

Student Experiences

COMMON PROBLEMS/DISEASES:

- Bronchiolitis, Pneumonia
- Asthma
- Diarrhea and Dehydration
- Acute Abdomen
- Seizures
- Urinary Tract Infections
- Hyperbilirubinemia
- Fever, Sepsis
- Renal Disorders
- Hem-Onc Disorders

INPATIENT: 90%

OUTPATIENT: 10%

CONSULTATION: 10%

PRIMARY CARE: 90%
