

Minimally Invasive Surgery

SU 494.99

General Information

COURSE CHAIR: Miguel Burch, MD

STUDENT COORDINATOR: Linda Heineman
E-MAIL: MedStudentInquiries@cshs.org

STUDENTS / PERIOD: max 1 min 1

DURATION: 4 weeks

Electives at Cedars-Sinai start in May. Please visit our [VSLO](#) catalog for dates and to submit your application.

Requirement(s)

1. USMLE Step 1 Score
2. Two Letters of Recommendation

Description

This sub-internship is intended to provide the student with in-depth knowledge of GI and weight loss surgery using minimally invasive techniques. The student is expected to function at the level of an intern, including pre-operative assessment of patient in the clinic setting, participation in the operating room and post-operative care of the patient either in the intensive care unit or on the wards. In addition, the student is involved in formal bedside presentations, journal club presentations, and case presentations, which are teaching sessions that are held weekly or bi-weekly.

Course Objectives

1. Take an accurate, focused patient history as it relates to the surgical disease process.
2. Ability to perform a focused physical exam.
3. Ability to concisely make a patient presentation at the bedside and in the clinic setting.
4. Knowledge of common presentations of gastro-esophageal reflux disorder.
5. Knowledge of chronic medical problems associated with obesity.
6. Knowledge of common presentations of pheochromocytoma and other adrenal disorders.
7. Knowledge of precipitating factors for developing hernias and risk factors associated with hernia surgery.
8. Knowledge of indications and contraindications of minimally invasive surgery.
9. Knowledge of indications and contraindications to weight loss surgery.

Course Objectives (Cont.)

10. Knowledge of appropriate use of imaging modalities, such as plain x-ray, ultrasound, MRI, CT scan, nuclear medical scan to diagnose or follow-up on common solid organ disorders.
11. Knowledge of abdominal anatomy.
12. Knowledge of inguinal anatomy.

Student Experiences

COMMON PROBLEMS/DISEASES

- Gastro-esophageal reflux disorder
- Inguinal and abdominal wall hernias
- Morbid obesity
- Adrenal mass
- Splenomegaly
- Choledocholithiasis

INPATIENT: 75%

OUTPATIENT: 25%

CONSULTATION: 15%

PRIMARY CARE: 85%
